

As we celebrated Broward County League of Cities Together We Serve Week, we joined countless volunteers across several cities and municipalities in Broward, to bring awareness to the value of service in communities through volunteering.

On October 25th, at **Hollywood Hills Nursing Home**, we were escorted into the hall and greeted with cheers by residents and staff. As we introduced ourselves, the residents were excited, and competitive. Before we even started a game, they already said "You're going down!" Volunteers extended enthusiasm and compassion, and residents were treated to afternoon ballots on the piano by one of our phenomenal pianist, later nicknamed Maestro. From beginning to end, in trivia, and Wii Bowling, we had several laughs and moments where we learned a lot in trivia, and the residents weren't holding back. As the day ended, and we reached the front of the facility, expressions of service impact were echoed, and the residents and staff welcomes our return.

**Together We Served!**

**THANK YOU TO ALL OUR VOLUNTEERS!**

Both of these activities could not be possible without the support of your volunteer efforts! You've reached out, and extended yourself out of your busy days, and decided to serve. Because of your selfless acts, you've made an invaluable impact on the lives of individuals who never expected it.
